Estudando com Gato Galáctico

Faça os cálculos e depois leve o Gato Galáctico ao seu amigo pintando o caminho em que todos os resultados sejam números PARES.

The maze consists of the following math problems in boxes:

- Top row: $4 \times 8 =$, $3 \times 5 =$, $8 \times 7 =$, $3 \times 0 =$
- Second row: $45 \div 5 =$, $3 \times 3 =$, $27 \div 3 =$, $4 \times 3 =$
- Third row: $2 \times 4 =$, $4 \times 6 =$, $21 \div 3 =$, $7 \times 6 =$
- Fourth row: $3 \times 2 =$, $2 \times 8 =$, $16 \div 4 =$, $5 \times 7 =$, $3 \times 1 =$
- Fifth row: $4 \times 5 =$, $3 \times 6 =$, $3 \times 9 =$, $14 \div 2 =$
- Sixth row: $32 \div 4 =$, $4 \times 7 =$
- Bottom row: $5 \times 8 =$, $18 \div 3 =$

The path of even results is: $4 \times 8 = 32$, $3 \times 3 = 9$, $27 \div 3 = 9$, $4 \times 3 = 12$, $7 \times 6 = 42$, $3 \times 1 = 3$, $14 \div 2 = 7$, $4 \times 7 = 28$, $18 \div 3 = 6$. This path leads to the cartoon cat at the bottom right.
